

Montering Installation

1. Mål afstanden / Measure the distance

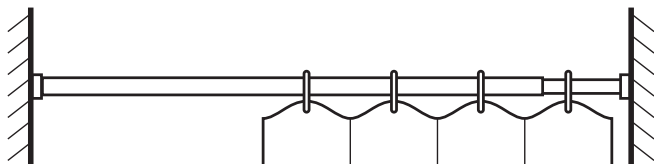

2. Træk og justér + tilføj 3 cm Pull and adjust + add 3 cm

3. Pres og slip / Push and release

4.

Har du trukket stangen for langt ud? Have you pulled the rod out too far?

Fjern begge rosetter.
Remove both finials.

Træk det indvendige rør helt ud af det ydre rør.
Drej ikke rørene!
Pull the inner tube completely out of the outer tube.
Do not twist the tubes!

Sæt det indre rør tilbage i det ydre rør i den anden ende. Drej ikke rørene!
Insert the inner tube back into the outer tube at the other end. Do not twist the tubes!

Sæt begge rosetter tilbage på rør-enderne.
Gentag nu installationens trin.
Put both finials back on the tube ends.
Now repeat the installation steps.
